WHILE TYPICALLY TAUGHT ON PEN AND PAPER OR BY TEXTBOOK METHODS, RECENT STUDIES¹ HAVE TESTED THE SUCCESS OF MEDIA-BASED STUDYING METHODS.

DUE TO ITS ABILITY TO COVER ALL OF THE WORDS IN THE LANGUAGE, HIRAGANA IS TYPICALLY TAUGHT FIRST IN A STRUCTURED ENVIRONMENT.

OUR HYPOTHESIS STATES THAT PARTICIPANTS IN THE MEDIA CATEGORY WILL OUTPERFORM THOSE USING THE TRADITIONAL PEN AND PAPER METHOD.

THE NULL HYPOTHESIS STATES THAT THERE IS NO SIGNIFICANT DIFFERENCE BETWEEN THE TWO STUDY METHOD GROUPS.

TRADITIONAL
LATIN & NON BASED

MEDIA
LATIN BASED

MEDIA
LATIN & NON BASED

Latin based alphabets include French and English, while non-Latin alphabets include Mandarin and Cantonese

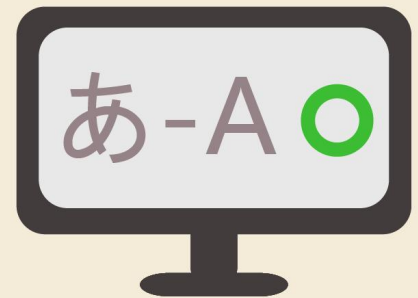

TO TEST THE TWO LEARNING METHODS, 24 PARTICIPANTS WERE DIVIDED INTO 2 METHOD GROUPS: MEDIA LEARNING VIA APP, OR TRADITIONAL PEN AND PAPER. THOSE GROUPS WERE THEN DIVIDED A SECOND TIME INTO BOTH LATIN AND NON-LATIN BASED AND ONLY LATIN BASED LANGUAGE KNOWLEDGE, SO AS NOT TO BIAS OUR DATA.

PARTICIPANTS WERE THEN GIVEN ONE HOUR TO STUDY HIRAGANA WITH THEIR METHOD. FOLLOWING THIS, THEY WERE INSTRUCTED TO TAKE A 20 MINUTE TEST COMPOSED OF CHART AND WORD COMPOSITION RECALL.

FOLLOWING THE FIRST TESTING PERIOD, PARTICIPANTS THEN TOOK A SECOND TEST 48 HOURS AFTER THEIR INITIAL STUDYING PERIOD.

THE DATA WAS ANALYZED UTILIZING A TWO-WAY ANOVA TEST VIA R FOR STATISTICAL ANALYSIS, ALONGSIDE CONFIRMATION TESTING.

WITH OUR DATA, THE NULL HYPOTHESIS IS ACCEPTED: THERE WAS NO SIGNIFIGANT DIFFERENCE BETWEEN THE LANGUAGE LEARNING METHODS' SCORES.

POSTHOC
TESTING

NORMALITY
TESTING

EQUAL
VARIANCE

One possible reason for this data contradicting past research such as that done in 2019² could be the age difference in participants, as Western students were young adults.

ON AVERAGE, PICTORAL STUDENTS OUTPERFORMED LATIN-BASED LANGUAGE LEARNERS IN BOTH MEDIA AND TRADITIONAL METHODS, WITH A SIGNIFICANT P-VALUE OF 0.015.

WE ARE ABLE TO REJECT THE NULL HYPOTHESIS THAT NLBL AND LATIN-BASED STUDENTS WOULD BE EQUALLY SKILLED ON AVERAGE IN EITHER METHOD.

SCORE
(/65)

MEANS OF SCORES

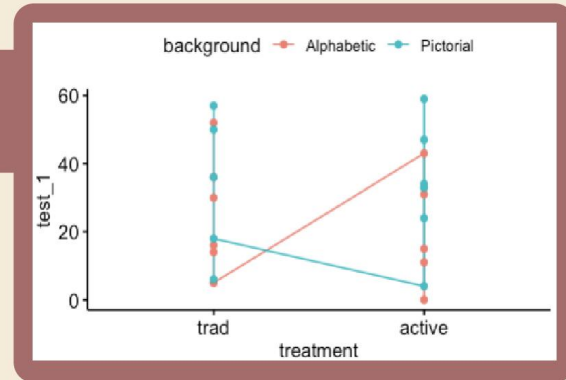

LATIN-BASED LEARNERS

NON-LATIN BASED LANGUAGE (NLBL) LEARNERS

WHILE THE DATA WAS NOT CONSIDERED STATISTICALLY SIGNIFIGANT, IT IS WORTH NOTING THE TRENDS WITHIN THE TWO GROUPS.

NLBLS* ON AVERAGE OUTPERFORMED LBLs IN THE TRADITIONAL METHOD IN BOTH TESTING SESSIONS. LBLs ON AVERAGE OUTPERFORMED NLBLS IN ACTIVE MEDIA TREATMENT, WITH A SLIGHT TREND IN OVERALL RETENTION, AS THEY TENDED TO HAVE HIGHER HIRAGANA RETENTION ABILITY THAN NLBL LEARNERS, DESPITE THE SCORE DIFFERENCE.

*ON IMAGES RIGHT: NLBL IS EQUAL TO PICTORAL LEARNERS

AT A GLANCE,

THE MOST DIFFICULT HIRAGANA TO MEMORIZE WERE ふ, や, AND れ

WITH A SUCCESS RATE OF 8%*

IT'S GOOD TO NOTE FOR BEGINNERS THAT HIRAGANA LIKE THIS MAY PRESENT THE MOST DIFFICULTY, AND TO PAY EXTRA MIND!

*AS OF STUDY 2

THE CURRENT TEACHING STYLE IS EFFECTIVE AMONG STUDENTS AND PRODUCES FAST ENOUGH RESULTS TO KEEP CURRICULUM PACING. FUTURE STEPS MAY INCLUDE LARGER TESTING SIZES TO FURTHER EXPLORE POSSIBILITY OF LBL AND NLBL DIFFERENCES BETWEEN STUDYING METHODS. AS WE NAVIGATE TO A DIGITAL LEARNING ENVIRONMENT, TRENDS SUCH AS THIS BECOME IMPORTANT FOR STUDENT SUCCESS.
